

VAP Environmental Insurance

A New
Incentive to
Encourage

The VAP
Environmental
Insurance Program
can provide
discounted
environmental
insurance (EI) for
brownfield properties
that are being
addressed under Ohio
EPA's Voluntary
Action Program (VAP).

*

Property owners,
developers and public
entities who would like
to take advantage of
this incentive can do
so by using VAP
Technical Assistance
or through enrollment
in the VAP PAYGO or
VAP MOA programs.

There is no
requirement to obtain
an NFA or CNS to
participate in the VAP
Environmental
Insurance Program.

**Are you concerned about liability risks when
conducting a brownfield cleanup?**

**Are you worried about risks and additional costs
if you end up finding contamination during the
brownfield cleanup that was not anticipated when
the cleanup started?**

**Do you have concerns about neighbors filing a
lawsuit against you if contamination has migrated
off your site?**

**If any of these worries sound familiar and you are
conducting a cleanup using VAP Technical
Assistance or are enrolled in either the VAP
PAYGO or MOA Program, the discounted VAP
Environmental Insurance Incentive may be just
what you're looking for!**
